Inspired by a Ted Talk from Hans Rosling - The best stats you've ever seen.

I start looking at data in a new way, and I become interested more in machine learning and neural network.

And since my domain was chemistry I couldn't change it right away so I start learning data science by myself and soon I become hooked about the different ways you can see the data and come to conclusions for better decisions.

## Work History

2019-09 - 2020-02	<div><b>Data Analyst</b></div> <div>AOP plus</div> <div>Interacted with the company product manager for inventory management by manipulating The SKU in the company Saas data to give more insight into the type of print, Color, Sex, and Size ordered during each QoQ.</div>
2019-09 - 2020-02	<div><b>Image Editor</b></div> <div>AOP plus</div> <div>Decrease design image preprocesses time by 92% by creating a Python script using Os and Pillow.</div>
2019-09 - 2020-02	<div><b>Marketing Analytics</b></div> <div>AOP plus</div> <div>Target clients with high potential by highlighting and organizing them in groups for the Email Marketing department by manipulating Log file with Pandas.</div>
2019-09 - 2020-02	<div><b>Shipping Associate</b></div> <div>AOP plus</div> <div>Decreased the amount of returned shipped orders by 20 orders a month by flagging order requests with no apartment number and phone using data manipulation and conditional programming.</div>

## Skills

Problem Solving	<div><div></div><div></div><div></div><div></div><div></div></div>
Data Analysis	<div><div></div><div></div><div></div><div></div><div></div></div>
Data Manipulation	<div><div></div><div></div><div></div><div></div><div></div></div>
